

Subject:ITUE23: Web Development Frameworks Continuous Practical Internal Evaluation 1

Design and develop a “Student Event & Help Desk Page” using HTML5 and CSS3.

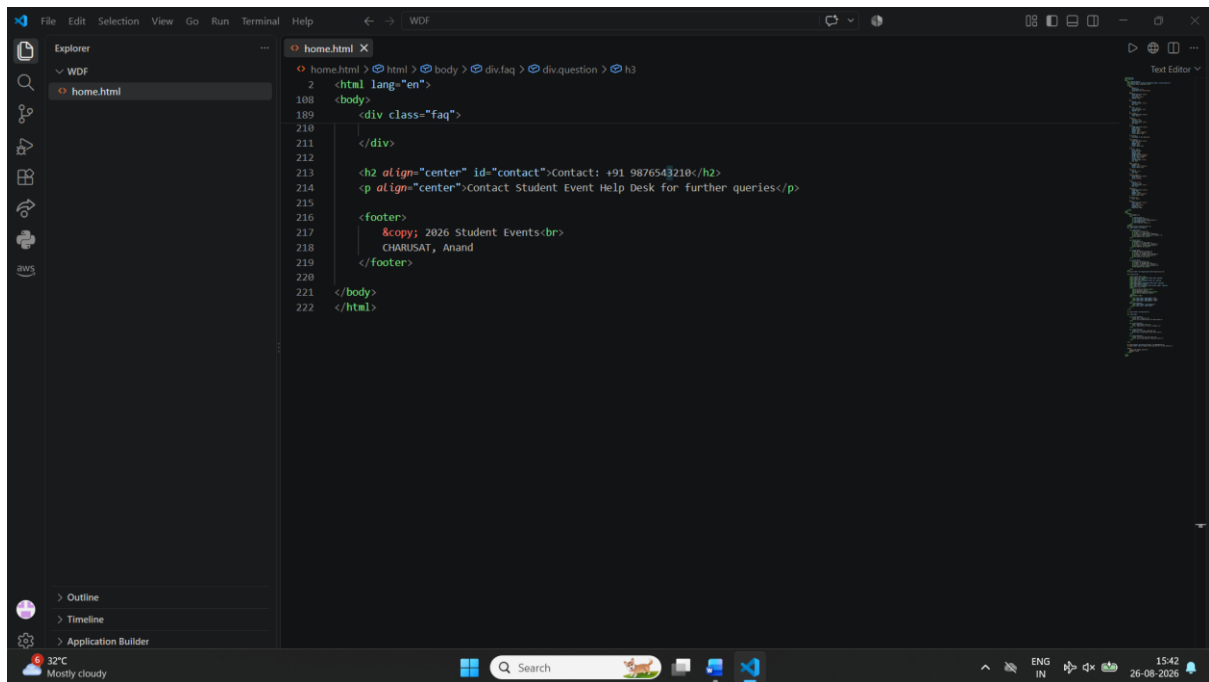

I use internal css in home.html file

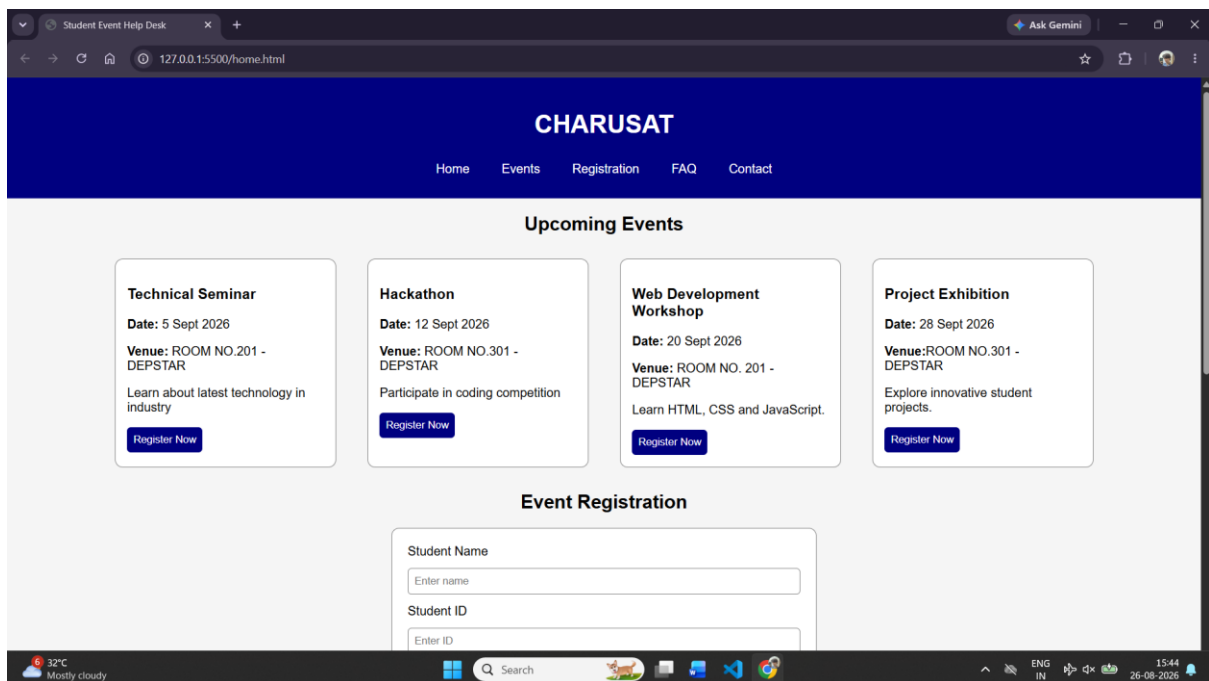

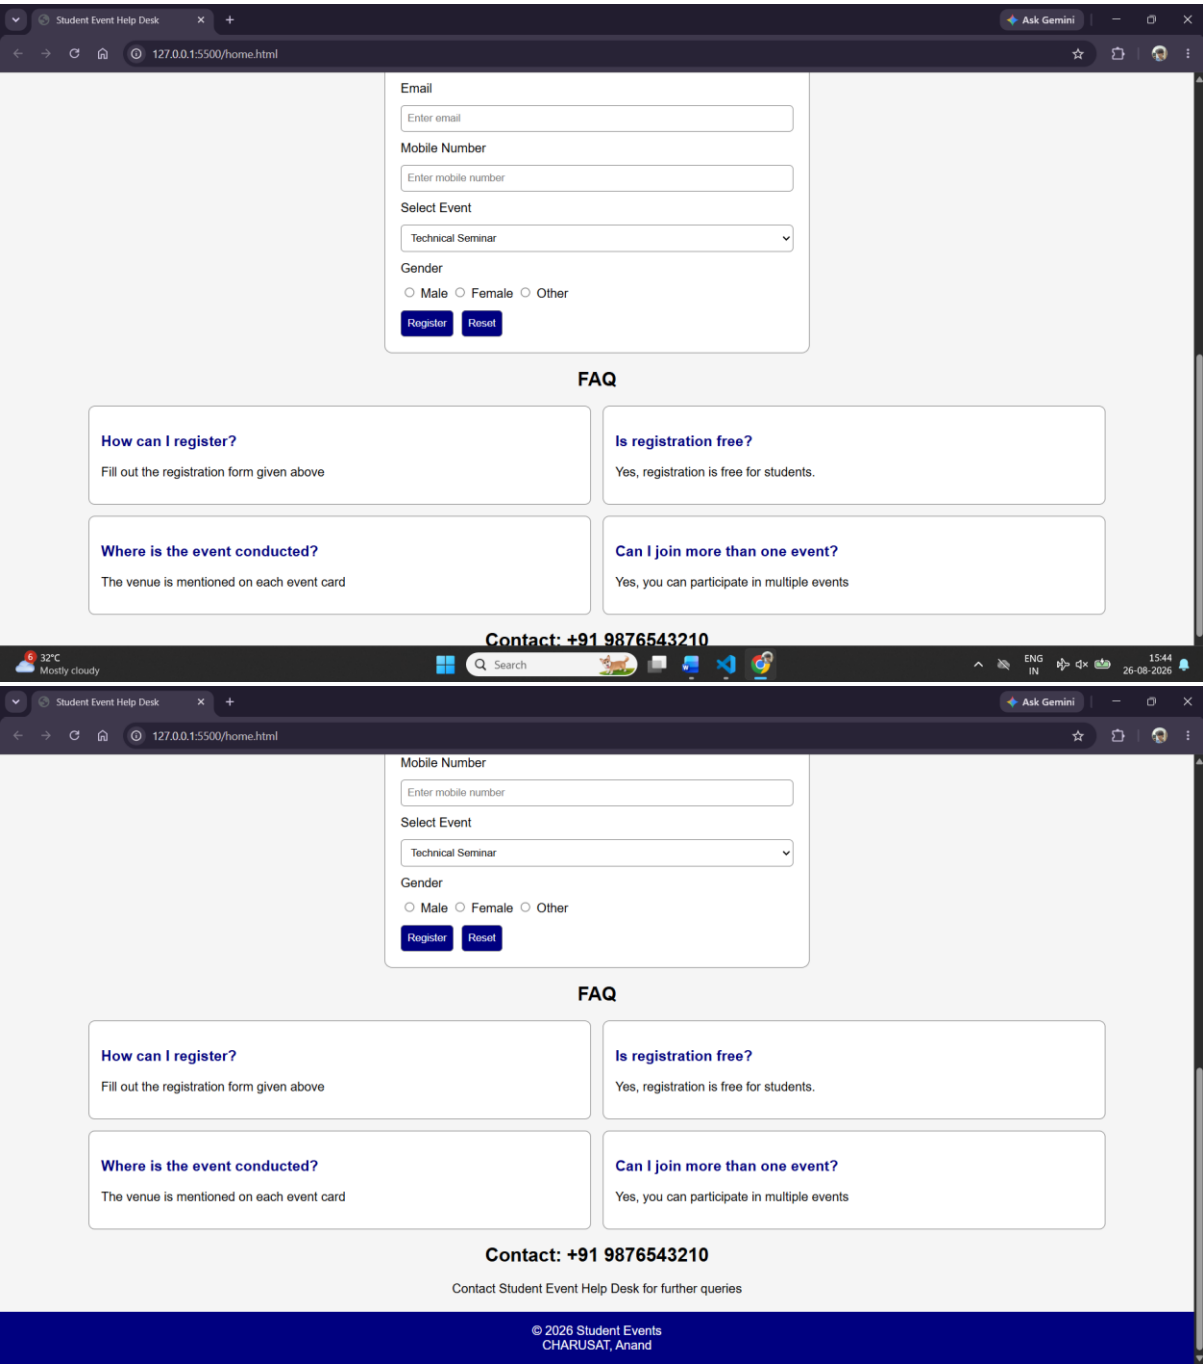

D26DCS163

```
File Edit Selection View Go Run Terminal Help
home.html
WDF
home.html
home.html
2 <html lang="en">
108 <body>
109 <div class="faq">
210
211 </div>
212
213 <h2 align="center" id="contact">Contact: +91 9876543210</h2>
214 <p align="center">Contact Student Event Help Desk for further queries</p>
215
216 <footer>
217 <copy> 2026 Student Events<br>
218 CHARUSAT, Anand
219 </footer>
220
221 </body>
222 </html>
```

Output :- Web browser:-

Whole page zoomed out:
